

DRESS FOR SUCCESS

FOR THE INTERVIEW

MEN

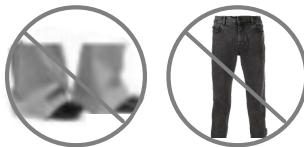

The Look: You want the interviewer to remember what you said, not what you wore. We recommend well-groomed hair and nails and a trimmed beard or clean shave. Cover up any tattoos and body piercings, and use very little or no cologne or jewelry.

Shirt: Wear a white or light colored long-sleeve dress shirt. We recommend you know your collar (neck) size and arm length for a fitted and comfortable look.

Avoid T-shirts or Polos.

Suit: Wear navy, charcoal grey, black, or a subtle pattern two-piece suit. We recommend you know your jacket size and arm length for a custom fit.

Make sure your pants are fitted and not dragging on the floor. Stay away from jeans and dirty, torn, or baggy clothes.

Tie: Choose a color that complements your suit or shirt in a subtle pattern or a solid color.

A bow-tie is not recommended for an interview.

Accessories: Use a portfolio to hold your résumé without folding it.

Do not wear headphones or sunglasses. Avoid flashy jewelry. Ensure that any devices (phone, smartwatch, etc.) are on silent.

Shoes: Wear polished dress shoes with dress socks that match your suit. Make sure your belt matches the color of your shoes.

Avoid casual shoes or sneakers.
